~~Evolut~~ Evolution of
Transport & Communication

25/6/26

Thursday

* New Words -

1) Locomotive - a railway engine that ~~pulls~~ pulls a train.

2) Technology - use of scientific knowledge, for example in designing new ~~mach~~ machines.

3) Homing pigeon - a pigeon that has been trained to find its way home from a long distance away.

~~Future
25/6/26~~

E. Answer the following questions.

1. How were goods for trade transported in ancient times?

→ The earliest human ~~being~~ beings did not have vehicles to carry large and heavy things — they dragged them from place to place. Later, no wheeled vehicles like carts were invented that could transport goods from place to place. The ~~&~~ muscle power of bullocks or horses was used to move the vehicles.

2. What power was used by early ships and how was this different from the power used in the ships of 19th century?

→ Early boats used the muscle power of rowers, while sail boats used wind power. New steam ships used this power in engines fitted in their ships.

3. How has ~~changed~~ ~~between~~ travel between India and British changed in the type of transport and the ~~time~~ time the journey takes? Explain in two or three sentences.

→ Earlier, travel between India and British used to

take place by land or by sailing ships. This used to take ~~several~~ several months.

The invention of steam ships, which used this power in the engines ~~is~~ fitted in their ships, made sea ~~journeys~~ journeys faster.

A journey from England to India, took several months by sailing ships could be made in six weeks by sailing ships. Now, an air journey from India to England take only 8-10 hours.

Friday

Q 4. What does communication mean?

→ Communication means to be in touch with others through ~~speaking~~ speaking, writing, reading or travelling.

5. Arrange these 'power' words in the right time order: electricity ~~steam~~, muscle, ~~petrol~~ petrol, steam.

→ Muscle - steam - petrol - ~~the~~ electricity.

6. Write one sentence each about the advantages of ~~the~~ the following inventions - printing press, telephone and radio.

→ Printing press. - The printing press made it possible to print many copies of books and

Friday

news-papers, so Knowledge and information became available to many people.

Telephone - With the telephone, people who ~~were~~ were far away from each other could have a conversation.

Radio and TV - Radio and television made it possible to deliver news, information and ~~entertainment~~ entertainment to thousands of people at the same time. They became very popular all over the world.

A. Picture Study-

This is a page from a book written and decorated by ~~hand~~ hand. Look at it ~~carefully~~ carefully and answer the questions:

1. How long would it have taken to write such books?

→ It would ~~have taken~~ take several years to write such a book.

2. Would such books have been easily available to most people?

→ No, the books would not be easily available to all people.

22/1/26

* Answer the following questions.

1. What is a constitution?

→ The system of laws and ~~bas~~ basic principles that a country is governed by is called the constitution.

2. Who was Dr B.R. Ambedkar?

→ Dr B.R. Ambedkar was the chairman of the Constituent Assembly which was a seven member committee responsible for writing the Constitution.

3. Why is the Preamble to our Constitution important?

→ The word 'Preamble' means an introduction. The Preamble to our Constitution has certain ~~was~~ words that tell us what kind of country the Constituent Assembly wanted India to be.

4. What are the Directive Principles of State Policy?

→ To make sure that the ideas of the Preamble are put into practice, the Constitution has guidelines or instructions to help the

Government. These are called Directive Principles of State Policy.

27/7/25

CW 5. What is the different difference between Fundamental Rights and Fundamental Duties?

→ Fundamental Rights are the essential and important rights that people must have in a Democracy. Fundamental Duties are the duties of the Indian citizens towards their country.

The Directive Principles are only guide lines, they are not laws. Fundamental Rights are laws.

6. Why do you think that Fundamental Duties are a part of the Constitution?

→ Fundamental Duties are the duties of Indian citizens towards their country. They have been included into the Constitution to make sure that the citizens respect their country and that their Rights are maintained.
