

THE AMAZING WORLD OF ANIMALS

Plants
and Animals

Write T for 'true' and F for 'false'.

1. Hermit crabs wear empty mollusc shells for protection. When they outgrow these shells, they grow shells of their own.
2. Snakes can hear very well.
3. A jellyfish cannot regrow its tentacles.
4. A seahorse has a suit of armour to protect it from its enemies.
5. Most dogs have better hearing than humans.
6. At 188 decibels, the trumpet of an elephant is the loudest sound produced by an animal.
7. Blue whales have the largest eyes among animals, each measuring 16 inches across.
8. There are many types of leopards, like African, Indian, Arabian, Amur and Javan.
9. A flying fox is a kind of a fox.
10. The great Indian bustard, found in India and Pakistan, is an endangered species. This bird feeds on small snakes, lizards, scorpions, wheat, millet and groundnuts.
11. Orangutans and dolphins are among the least intelligent creatures in the world.

A hermit crab

A jellyfish

A leopard

Listen and Talk

- The heart of a blue whale is the size of a small car.
- Oysters can change from one gender to the other and back again.
- Mosquitoes do not have jaws, so they cannot bite. They stab!
